I am an aspiring professional currently pursuing a Bachelor's degree in Computer Science and Information Technology. I have gained hands-on knowledge in graphic design, UI/UX development, and frontend development through my coursework and practical experiences. As a fresher, I am constantly learning and building a strong foundation in these areas, enabling me to create visually appealing designs and develop functional web applications. I am driven by a passion for delivering engaging user experiences and eager to contribute to impactful projects.

## **Education**

### **College of Applied Business and Technology(2019-Present)**

BSc Computer Science and Information Technology (TU)

As a CSIT student, I have acquired a strong foundation in various subjects, including Object-Oriented Programming (OOP), web design, web development, and WordPress. These modules have provided me with essential knowledge and skills in software development, website creation, and problem-solving.

### **Morgan International College (2017-2019)**

+2 in Science as a Major (NEB board)

### **Kalika Secondary School (2006-2017)**

Completed schooling with fundamental subjects. (SEE board)
